EDUCATION

Walchand College of Engineering, Sangli
B. Tech. – Computer Science and Engineering
📅 2020 - 2024 Expected   🎓 8.73 CGPA

Shri TP Bhatia College of Science
Maharashtra-State Class: 12
📅   🎓 86.92%

Shivaji Vidya Mandir Highschool
Maharashtra-State Class: 10
📅   🎓 92.20%

TECHNICAL SKILLS

Languages
`C++` `C` `Java (Basics)`
`JavaScript (Basics)` `Python (Basics)`

Web Development
`MongoDb` `Express.js` `React.js` `Node.js`
`Django`

Databases
`SQL` `MongoDB`

Ai-ML
`OpenCv` `Regression` `Image-processing`

PROFILES

- Codeforce: **VishalF**
- Leetcode **Vichauhan**
- GeeksforGeeks: **VishalG**
- Hackerrank: **VishalH**

INTERESTS

`speech-giving` `Listening Audio-Book`
`Problem Solving`
`Web Development` `Running`

EXPERIENCE

Fresh-Express
Industry-mini-project
📅 July 2022 – Currently   📍 sagli

`Image-processing`
- Extracted-the background from require image part using python
- removed the unwanted part from fruits image using using python

---

Inhouse-Internship
AI-ML
📅 july 2021 – Dec 2021   📍 Sangli

- Created a python library to preprocess on text
- Indentify sentiment of user based IMDB reviews Data
- github: **preprocess-vishal library**

PROJECTS

Skills Database Project
`MERN-stack`
- make complete responsive frontend page for user interface like Login,Signup,getSkills and getEmployee Data
- **U**sed JWT for authentication,Added functionality like Sorting ,Filtering of data based gender /location/position /department,show specific selected skill employee's data

tiktok-clone
`MERN-stack`
- make complete responsive frontend page
- **c**onnected MongoDB databse to get video for tiktok,added some functionality to make like,comment,song for corresponding video just like tiktok

Ind-TextBeautify
`Html` `Css` `React` `Js` `Bootstrap`
- preprocess on the given text
- **Can Read** the text for blind person
- can modify the text like covert to lovercase,uppercase,removed extra -space between text,can change the mode of visibility of text

---

Hospital Management with Advance Pre-supply
`CPP` `OOPs` `File-handling`
- **Corona-prediction** based on all scientific method used of Gov of India,BMI result and other basic stuff in advance
- Manage hospital all type of data using File-handling

Chrome-Extension
`Html` `Css` `Js` `Bootstrap`
- The Chrome extension would greet the user with a dynamic background image based on the time of day and display random jokes from a joke API on user demand
